

ANNUAL MEETING

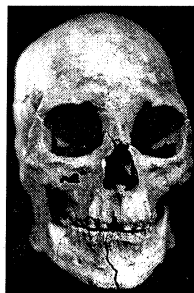

FRIENDS OF THE OFFICE OF STATE ARCHAEOLOGY, INC.

SATURDAY, JANUARY 28, 2006
Smith Middle School Auditorium
216 Addison Road, Glastonbury, Connecticut

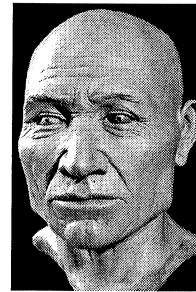

- 1:00 WELCOME, BUSINESS MEETING, NOMINATION & ELECTION OF DIRECTORS & OFFICERS
2:00 SPEAKER: DR. JAMES CHATTERS, archaeologist and paleoecologist who has dedicated his life to understanding the human and environmental prehistory of North America. Dr. Chatters was also the first scientist on the scene following the discovery of Kennewick Man by two college students.

“The Discovery of Kennewick Man and its Aftermath”

Dr. Chatters’ presentation will cover the discovery in 1996 of Kennewick Man in the Southeastern region of Washington State. Kennewick Man – estimated to have lived 9,400 years ago – is one of the oldest and most important human skeletons ever unearthed in North America. The discovery of the remains, along with other recent finds, may significantly alter conventional views of how, when and by whom the Americas were peopled. In his book, *Ancient Encounters: Kennewick Man and the First Americans*, Dr. Chatters talks about the discovery of Kennewick Man and the decade-long effort to gain access to the remains for scientific study. Dr. Chatters will sign copies of his book (available for purchase).

Skull of
Kennewick Man

The face of Kennewick Man
as reconstructed
by Jim Chatters and Thomas McClelland

The public is invited to attend this event, co-sponsored by FOSA and the Connecticut Museum of Natural History and Connecticut Archaeology Center. Current, paid-up members of either organization will be admitted without fee. A \$10.00 donation is requested from all other attendees; students are requested to donate \$5.00. For further information, please call (860) 486-4460.

BAD WEATHER ARRANGEMENTS: If weather requires cancellation, FOSA will post notices on WTIC (AM 1080) and on Channel 3 by 10 AM. RAIN/SNOW DATE: SUNDAY, JANUARY 29, 2006.
